

IN-DEMAND COURSES TAUGHT THROUGH SHARED EXPERIENCES

SHARE YOUR
KNOWLEDGE WITH
THE COMMUNITY

OUR CLOUD PLATFORM HELPS COMMUNITY EXPERTS TEACH BUSINESS AND TECH COURSES AND EXTEND THEIR REACH

EdTech continues to see growth with each new tech innovation. But it still needs more tools for blacks.

Our platform helps people of color to teach and earn an income. It also helps them grow their influence.

Instructors who join create learning tracts that lead to outcomes that students want. The courses within those tracts are easy to learn and in-demand.

Our staff approves the best lessons and rejects the rest. Surveys appear at the end of each course. Once surveys are submitted we share them with the instructors. This way our platform improves through real feedback.

We screen instructors through interviews. We also do background checks on them.

BECOME AN INSTRUCTOR

To join as an instructor, prospects first fill out a form on our website.

Next, we video chat with the applicant and assess their work.

If an applicant is accepted then they can opt-in to one of our benefits packages. Each package offers its own service benefits and payouts.

Our staff coordinates with the instructor to build the course content. Finally, we publish the course for the students.

PROGRAMS

COURSE TRACKS

Instructors teach courses under five main course tracks.

Each course has a workbook that reinforces the lessons.

Assignments are completed and help to strengthen learning outcomes.

Lessons are either pre-recorded or live.

DATA SCIENCE

The field of processing data in order to gain new insight.

SOFTWARE DEVELOPMENT

The field of creating software using programming languages.

BUSINESS NETWORKING

The field of establishing relationships to grow a business.

SALES & ECOMMERCE

The exchange of products and services for money.

INTERACTIVE DESIGN

The field of combining people and technology to create better interactions

Please don't lose me - you need me to get into the event. If someone in your group loses me we'll need to cancel all the barcodes bought in the same order and you'll have to re-distribute them to your mates. Don't make yourself unpopular - keep me safe. Tickets are subject to TheTicketSellers terms and conditions: <http://bit.ly/1wms>
